

RED DRAGON READY ADVISEMENT AND REGISTRATION ROADMAP

1 SCHEDULE YOUR ADVISING APPOINTMENT

Before your registration time ticket, make sure to set up a meeting with your academic advisor. Find your advisor's name in Degree Works or Starfish Connections, and reach out to schedule an appointment. **You can't get your PIN without meeting with your advisor first!**

Red Dragon Ready Tip: Use the "Prepare for Registration" link on MyRedDragon to view your time ticket AND view holds (take care of these ASAP)

2 PREPARE

Review Degree Works to check your transfer credit, total credits to graduation, degree progress and remaining requirements. Use the course schedule to identify potential courses for next semester.

3 ADVISOR MEETING

Come prepared with questions and a potential plan for your courses. Check out [The Guide to Productive Academic Advisement Meetings](#) for more ideas on how to prepare. Don't forget to take notes!

4

BUILD POTENTIAL SCHEDULES

Use Schedule Builder to build and identify potential schedules. Use the shopping cart to save your desired schedule for quick registration when your time ticket comes. Make use of course filtering to make sure you are selecting the best course for you.

5 REGISTER AT YOUR TIME TICKET

Make sure you are prepared with your PIN, potential schedules and back up options when your time ticket comes. Pay attention to error messages in order to resolve them fast. Double check section numbers, pre-requisites and sequencing to avoid unnecessary errors & stress.

Red Dragon Ready Tip: Have back up schedule options in case of course closures or other unexpected scenarios.

6 REVIEW YOUR SCHEDULE

Make sure you are actually registered for the courses you selected, double check how they are filtering in to your degree works and confirm you are full time with at least 12 credits. You can make changes to your schedule through the start of the semester. Additional changes can be made during drop/add.
